PROFESSIONAL SUMMARY

Results-driven Information Technology student with hands-on experience managing the full lifecycle of multiple software and systems development projects across academic, client-based, and government settings. Proven ability to coordinate cross-functional teams, track scope, schedule, budget, and risk, and facilitate stakeholder communication from ground-level updates to executive reporting. Seeking an internship role in project management, business analysis or quality assurance where I can apply my technical background, structured PM methodologies, and QA experience to deliver real business value.

KEY SKILLS

Project Lifecycle Management | Stakeholder Communication | Risk & Issue Tracking | Cross-Functional Team Coordination | Project Documentation | Business Analysis | Scope & Schedule Management | Executive Reporting | Full Stack Web Development | Agile Coordination | Software Quality Assurance | Test Planning & Execution

TECH PROFICIENCY

RELEVANT EXPERIENCE

Wasteless: Digital Marketplace for E-waste Management

Capstone Project | Project Manager & Quality Assurance Tester

2025-2026

- Managed the full project lifecycle of a multi-sided marketplace platform connecting e-waste sellers with repair shops and tech-harvesters across Valenzuela City, coordinating cross-functional teams of designers, developers, and external stakeholders from requirements gathering through deployment.
- Tracked and maintained project scope, schedule, budget, risk register, and deliverables documentation, ensuring zero missed deadlines across all sprints while facilitating weekly status updates and milestone reviews.
- Acted as the primary point of contact for all stakeholder communication, producing executive-level progress reports throughout the project.
- Designed and executed test cases to validate system functionality, identified and tracked defects, and ensured the platform met quality standards prior to deployment.

Valsyntrix: ARTA-Compliant Customer Experience Management and Analytics System

2025-2026

Government IT Project | Project Manager

- Managed development of an ARTA-compliant customer experience and analytics platform for the Valenzuela City Government, ensuring full regulatory alignment.
- Tracked deliverables and coordinated stakeholder communication across government offices and the technical development team.
- Produced status reports and facilitated project reviews with executive and government stakeholders.

Curse of Biringan: Clash of Instinct for Survival

2025-2026

Academic Project | Project Manager

- Directed project planning, team task allocation, and schedule management for a game development project, applying structured PM methodologies throughout.
- Maintained complete project documentation and served as the central coordination point across all team functions.

Home Library: E-commerce System

2025-2026

Client-Based Project | Full Stack Developer

- Designed and developed a full-stack e-commerce website for a client, translating business requirements into a functional product that promotes and sells their services online.
- Managed client communication, gathered feedback across iterations, and ensured the final deliverable met all agreed requirements.
